

The P945 C brings back a classic style and a dual installation possibility: its shape allows it to be installed even inside an old fireplace, thus enhancing a corner of the house. A reminder of tradition, with all the technological functions for modern use. With its 9 kW it is the ideal stove for heating rooms up to 100 m<sup>2</sup>. Discover all the colours and features.

### Double motor, double comfort

Thanks to the Multicomfort Plus system, stoves equipped with the double Multifuoco Dual Power motor allow for separately managing the two motors **to heat multiple rooms with different temperatures**, set according to personal needs.

### Remote management

Modern **pellet stoves can be also be programmed and managed remotely**. When the user is away from home, the ignition and switch-off times can be set through Wi-Fi via the My Piazzetta app. At home, the stove can instead be operated also via Bluetooth, using a smartphone.

## GENERAL FEATURES
